PROMPT Wales Newsletter

Issue No.2 March 2019

January

“The Implementation Month”

January was a very busy start to 2019!!

A huge CONGRATULATIONS to all **7 Health Boards** for implementing PROMPT Wales!

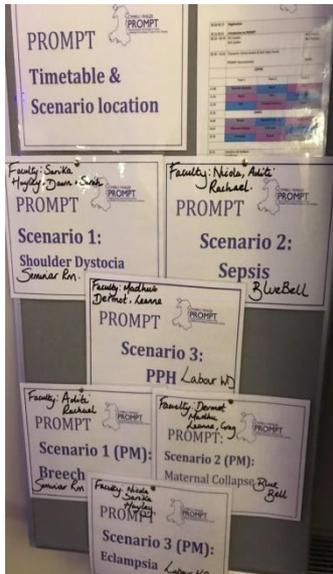

Some units have implemented PROMPT for the very first time whereas others have modified their existing PROMPT to PROMPT Wales.

It was exciting to see the PROMPT Key Principles: TEAMWORK, COMMUNICATION, SITUATIONAL AWARENESS being implemented into all PROMPT Wales training days. In attendance were the PROMPT Wales implementation team offering support & guidance when needed.

The PROMPT Wales National team would like to extend their gratitude to all the faculties and staff from each Health Board for welcoming us on your local PROMPT Wales training day.

The PROMPT Wales National team look forward to attending a future PROMPT Wales day near you!

Wales Maternity Network

Local Faculty Development Days

Local faculty development days took place in Powys & in Cwm Taf recently whereby the PROMPT Wales team have supported & facilitated.

Powys have increased their faculty members to **10**

Cwm Taf have increased their faculty members to **29**.

WAST have also got **6** PROMPT Faculty members!

Again, it was extremely humbling to see the enthusiasm & commitment that all the Health Boards have for the future development of PROMPT Wales within their local units, with a focus on reducing avoidable harm & improving perinatal outcomes.

The National PROMPT Wales Faculty Database has now got an amazing 263 registered PROMPT Trainers. Well done to all teams! #PROMPTWALESARMY

Powys THB	- 9 th May 19

If you would like further information regarding your local PROMPT day please contact your local PROMPT lead or the PROMPT Wales National Team

PROMPT PROPS & TIPS:

Here is the lovely Sue from Powys tHB who has kindly shared her amazing 'Fake Blood Recipe' for a PPH station.

Ingredients:

- 2 litres of water
- Cornflour
- Food colouring:
Red, Blue & Purple

Preparation:

Split up coloured liquid into 4 x 500ml lots

With the first 500mls

- Put 1–2 heaped desert spoons of cornflour in & stir well.
- Play with colour until you think it looks dark red enough.
- Heat on stove until thickening.
- Don't worry if it looks whitish, it will change when cooked.
- Remember it gets thicker when it is cool.

Use that as your basis for thicker or thinner blood with the other 3 lots.
TOP TIP: Even thin blood needs a bit of thickener in it!

Storage: Put the thick custard into container. Thinner blood into plastic bottles.

When you make up your blood loss, use different thickness blood to make it look realistic. **Thank You Sue for your PROP Tips!!**

We will be sharing your prop tips in **your PROMPT Wales newsletters – so please email us!**

Coming soon.....

COMMUNITY PROMPT WALES

The PROMPT Wales team have emphasized the importance of *'teams who work together train together'* in their own clinical environment throughout the roll out of PROMPT across Wales. We have noticed much of PROMPT takes place in the hospital so we are committed to providing PROMPT in a community /midwifery led setting.

The PW team will be in touch locally to discuss further!
"Watch this space!!!"
