

Wales National Workforce and Reporting System (WNWRS)

Reporting System launch

July 2nd was the launch of the reporting side of the WNWRS. There is now validated data to view in the Reporting Module, taken from the March 2020 extract.

Please have a look at the reporting side of the system and see how it can help your Practice. Full guidance on the Reporting Module is being updated and will be available soon on our website.

Focus on: Job Roles

It is important that the WNWRS reflects an accurate picture of the workforce in Wales, so please ensure all Staff have the correct Job Roles in your Practice. Any healthcare professional that has a registration number, should have this entered in the Registration Number box of their Staff Record. This includes GPs, Nurses and Pharmacists.

Action needed : Practice Managers to check all **Job roles** are correct for their members of staff and enter any missing registration numbers.

Update on GP Registrars.

Following feedback from Practice Managers and discussion with NHS Digital, there is new guidance on entering GP Registrars on the WNWRS.

GP Registrar Data is being phased out of the Staff Overview area. All GP Registrars are indemnified through their Lead Employer and do not fall under the Scheme for GMPI. Their data will be loaded into the reporting system from an external source and **does not** need to be recorded in the WNWRS.

For GP Registrars that are currently on the WNWRS, please do not delete them, just enter a termination date when their rotation ends.

Hints and Tips

If you are struggling to see your Staff Records please try loading the WNWRS using Google Chrome.

Also – did you know that you can change how you view your Staff Records by clicking on the three dashes on the top right hand side of each column of the Staff Table?

www.locumhubwales.co.uk

TIP: Locum Hub Wales works best with Google Chrome

Over a quarter of all GP Practices in Wales are now registered on Locum Hub Wales. Thank you to all Practice Managers who have registered on the system and for those who haven't – don't miss out on this fantastic free service!

Break Free from expensive Agency Fees

Let The GPs find you

Remember when setting up your account to add in your Practice

If you have a Cluster or Practice Managers Meeting coming up, please contact us at nwssp.primarycarewnwrs@wales.nhs.uk to arrange a demonstration of this new system.
