

Wales National Workforce and Reporting System (WNWRS)

WNWRS Newsletter October 2020

GP Trainees and Registrars

Please note that during the latest data validation cycle, all GP Trainees and Registrars were removed from the WNWRS. This follows feedback from Practice Managers that continually updating Registrar records was time consuming. We are able to obtain this data from a different source to feed the reporting module and all Trainees are covered for GMPI purposes by the Welsh Risk Pool.

Please **do not** enter any new Staff Records for any GP Trainees and Registrars. If you still have GP Trainees and Registrars on your Practice Staff Table, please contact the email below.

Focus on: Pharmacy Data

We acknowledge and understand that Practice Managers are under increasing pressure during these uncertain and difficult times. We are always looking for ways to help and minimise the work you need to do on the WNWRS at Practice level. With this in mind, during the latest data validation cycle, GPhC numbers have been entered for all Pharmacy Staff that were missing registration numbers, for all Practices across Wales.

Action Required: Please check the GPhC numbers are correct for your Pharmacy Staff and update any incorrect or missing numbers.

DONT FORGET to register as a Practice Enabled User on [Locum Hub Wales \(https://locumhubwales.co.uk/\)](https://locumhubwales.co.uk/) the solution for all your Practice's Locum needs.

General Practice Workforce publication

Please find below a link to the latest Statistics publication from Welsh Government on the General Practice Workforce, released on 29th October 2020.

[General Practice Workforce : as at 30 June 2020 - https://gov.wales/general-practice-workforce-30-june-2020](https://gov.wales/general-practice-workforce-30-june-2020)

This data comes directly from the WNWRS and it is through your efforts and the accuracy of the data you provide, that the quality of the information continues to improve at each quarterly extract.

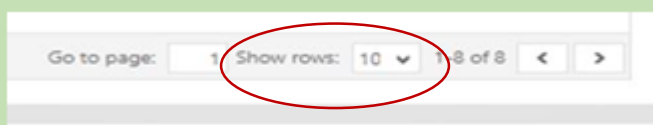

WNWRS View

Do you struggle to see the WNWRS? Is it too small on your screen?

If you press the Control (Ctrl) key and use your mouse wheel, you can scroll in and enlarge the screen to your preferred size.

You can also change the amount of records shown in the Staff Overview section by clicking on the drop down box of the 'Show Rows' area, shown below:

Why book Locum GPs through Locum Hub Wales?

Practices across Wales are reporting that there have been many immediate and positive benefits of using Locum Hub Wales. In one case in particular, a Practice only ever used a select few Locum GPs as these were the only ones they knew that were available to them, unaware that there were several other GPs who were willing to work in their Practice. Only when they logged on and started using Locum Hub Wales, were they alerted to the fact that there were a pool of GPs at their disposal, who they were unaware of before. Just one of the features and benefits of this great new service.
