

## Wales National Workforce and Reporting System ([WNWRS](#))

### Recruitment

NHS Wales Shared Service Partnership (NWSSP) in partnership with [GPWales](#) and Welsh Government have developed an intuitive and streamlined website for GP Practices in Wales to advertise and manage job vacancies for free.

There are a range of resources on the [Recruitment website](#) to help you do this including Job Description templates, Advert Guidelines and FAQs.

If you need any support with using GP Wales, please contact the team directly at [support@gpwales.co.uk](mailto:support@gpwales.co.uk)

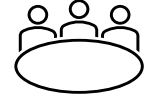

If you need any advice or help with advertising your vacancies, please contact the NWSSP Primary Care Advertising Team at [NWSSP.GPadvert@wales.nhs.uk](mailto:NWSSP.GPadvert@wales.nhs.uk)

### Additional Capacity Payments

In order to help our team provide swift validation of any ACP claims you make via your Health Board, please ensure the following:

- All directly employed individuals have corresponding ACP hours reflected in the WNWRS
- Any Locum GPs have enough hours entered in Locum Hub Wales against your Practice to validate any claims submitted

Please enter 100% of hours worked in WNWRS, even though the ACP claim may only be for 50% of these. The WNWRS should always reflect the actual working hours of those who work in your Practice.

### Opportunity

- Do you have ideas on how we can help to streamline the process of workforce data collection?
- Have you often wished for a specific piece of workforce intelligence that would help in your role?
- Would you be interested in collaborating with NWSSP on any future developments or innovations to the services we provide?
- Are you open minded and want to improve the shape of Primary Care across Wales?

If the answer to any of these questions is 'yes', then you are just who we are looking for! We are looking for a small group of Practice Managers from across Wales who would be willing to join our Practice Manager Workforce Intelligence Forum. If you'd like to know more, [please provide us with your details via the online form](#) or by emailing us at the address below.
