NWSSP utilises a range of platforms to conduct its procurement activity. The route to market used by NWSSP is dependent on the individual goods, services or works being procured, the existing available external frameworks or agreements which Health Boards and Trusts can utilise, and value of goods services or works being procured. The below table articulates the different platforms used against different values of spend:

Less than £5,000	Evidence of value for money	Direct quotations
£5,000 - £25,000	Evidence of 3 quotations	Competition conducted via Multi-Quote
£25,001 – Current Find a Tender Threshold	Advertised call for competition	Advertised via Sell2Wales Competition conducted via E-tender Wales

**NB:** Please note NWSSP can also utilise external frameworks or agreements which Health Boards and Trusts are named, at all the above value thresholds referenced above. External framework providers may utilise alternative platforms to conduct their framework procurement activity.
