

Publication Notice 14/07

8 April 2014

Chief Executives, Local Health Boards and NHS Trusts
Estates & Facilities Managers, Local Health Boards and NHS Trusts

Dear Colleague

The following publication is now available from the Publications page of the
Facilities Services website. <http://howis.wales.nhs.uk/whe>

 **WHTM 01-06 Decontamination of flexible endoscopes Part B: Design and installation**

<http://howis.wales.nhs.uk/sites3/Documents/254/WHTM%2001-06%20PART%20B.pdf>

This Welsh Health Technical Memorandum (WHTM) sets out guidance on the design and installation of endoscope reprocessing units. It is intended as a guide for management, for technical personnel with appropriate training and experience and also for users responsible for the day-to-day running of decontamination equipment. It will also be of interest to microbiologists, infection control officers, architects, planners, estates managers, supplies officers, and others in both the public and private sectors.

This is a new guidance document except for the elements dealing with AER testing which supersede archived Health Technical Memorandum 2030.

If you have any queries on this publication please contact Ann Konsbruck on Cardiff 029 2031 5512 or e-mail ann.konsbruck@wales.nhs.uk.

Yours sincerely

N H DAVIES
DIRECTOR, FACILITIES SERVICES
