WHTM 05-02 and the series of which it is part provide specific guidance on fire safety in the design of new healthcare premises and major new extensions to existing healthcare premises and refurbishment schemes.

The aim of WHTM 05-02 is to ensure that everyone concerned with the management, design, procurement and use of the healthcare facility understands the requirements of fire safety in order to ensure optimum safety for all who are present in the building.

It supersedes all previous versions of HTM 05-02.
