## **NHS Wales Bursary Opt out process**

If you haven't registered an account on the NHS Wales Bursary system, please do this and create a draft application and choose the opt-out option, you will then be issued with an FRSL number for Student Finance which is effective for the duration of the course. You do not have to opt out each academic year.

If you have already registered on the system, please log into your account (the relevant application/year to Opt out of) and choose the opt out option from the menu on the top right of the profile. If successful you will then be issued with an FRSL number for Student Finance which is effective for the duration of the course. You do not have to opt out each academic year.
