

University NHS Wales Bursary Payment Information

CARDIFF METROPOLITAN UNIVERSITY

Payment Dates

Payments will be in your account on the 1st Friday of every month. This includes any childcare or disability payments. Disability related payments are also made throughout the month, as and when we receive the confirmation from NHS.

Payments are calculated into equal 11ths (September to July). September and October's bursary are paid together at the beginning of October due to start of term not being until late September.

Cardiff Metropolitan University can't pay out any bursaries until we receive confirmation of your bursary entitlement directly from the NHS Student Award Services and the School of Health Sciences have confirmed your enrolment. Any queries regarding entitlement or bursary amount should be directed to NHS Student Award Services.

Any changes to your entitlement throughout the year will be reflected in any future payments. If you have been overpaid at the end of the academic year (or if you withdraw part-way though) an invoice will be sent to you for you to pay the money back.

The payments will be made as per the schedule below. An example is shown using £1,000 as the total bursary entitlement for the year. $\text{£1,000} / 11 \text{ months} = \text{£90.91}$ per month. September and October are paid together in October = £181.82

Bursary Month	BACS payment received directly into student's bank account.	EXAMPLE (using £1000 as your total entitlement for the year)
September	Fri 04 Oct 19	£181.82
October
